

WHAT SHOULDN'T HAPPEN IF CAMHS IS DOING ITS JOB PROPERLY?

Q What sorts of things really shouldn't happen in a good CAMHS service?

A Well things shouldn't, well quite a lot of things shouldn't happen in a good CAMHS service, but I think what shouldn't happen is a young person feeling like they are having decisions made about them that don't actually check out how they feel about that and what they want to happen, so it's really important that a young person feels on board with everything that is happening, and you know as much as possible is helping make those decisions with those workers there, so I think that's one major thing that shouldn't happen in CAMHS.
